

HANNA MARUSYCH

DevOps Engineer | Cloud & Platform Engineering

Chicago, IL · devopsannai@gmail.com · (347) 440-2588 · hannamarusych.com · LinkedIn · GitHub

PROFESSIONAL SUMMARY

DevOps Engineer with 6 years of experience building and operating cloud platforms across AWS and Kubernetes. Experienced in Terraform, CI/CD, Kubernetes operations, cloud automation, and platform engineering. I use AI-assisted engineering workflows with Claude Code, MCP, AWS Bedrock, and context engineering to automate infrastructure work and improve developer productivity while keeping production changes review-driven and governed.

PROFESSIONAL EXPERIENCE

Egencia | American Express Global Business Travel · Chicago, IL (Hybrid)

DevOps Engineer · April 2023 – Present

- Cloud and platform engineer building and operating AWS and Kubernetes infrastructure that enables Egencia's global business-travel services to ship and run reliably at scale.
- Contributed to the team migration of ML model-serving workloads from AWS SageMaker to Amazon EKS, achieving up to **66% lower operating costs** for an individual inference workload through Kubernetes-based autoscaling and resource optimization.
- Built and operated production Kubernetes platforms with EKS, Docker, and Helm, standardizing deployment and operational workflows.
- Automated AWS infrastructure provisioning with Terraform and standardized CI/CD and GitOps delivery using GitHub Actions, ArgoCD, and FluxCD.
- Implemented cloud and Kubernetes security controls spanning IAM, RBAC, secrets management, policy enforcement, and Zero Trust architecture.
- Built observability capabilities with Prometheus, Grafana, OpenTelemetry, monitoring, and centralized logging to improve production visibility and troubleshooting.

FanDuel · New York, NY (Remote)

Cloud Engineer · August 2020 – March 2023

- Managed production AWS infrastructure supporting large-scale containerized applications deployed on Amazon EKS.
- Automated infrastructure provisioning with Terraform and improved consistency, repeatability, and change management across AWS environments.
- Designed and maintained CI/CD workflows for application builds, testing, container publishing to Amazon ECR, and deployment to Amazon EKS.
- Contributed to data-platform modernization that delivered **2x query concurrency**, **3x faster** critical risk and trading workloads, and **55% higher** average query efficiency.
- Contributed to AWS video-streaming infrastructure that migrated **4 live channels in under 3 weeks** versus an internally expected 6-month timeline.
- Worked across AWS services including VPC, IAM, EC2, EKS, ECR, S3, Lambda, CloudFront, and load balancing to support secure and highly available production environments.

AI / AGENTIC ENGINEERING

Applied AI-assisted engineering workflows with Claude Code, custom skills, MCP servers, and AWS Bedrock to automate infrastructure work, accelerate troubleshooting, and improve developer productivity. Production changes remain branch-, PR-, and review-driven.

SKILLS

Cloud & Systems: AWS (EKS, ECR, EC2, S3, RDS, Lambda, VPC, CloudFront) · Linux · DNS · VPC networking · Load balancing

Kubernetes: Kubernetes · EKS · Karpenter · KEDA · Kyverno · Velero · Docker · Helm · Istio · cert-manager

IaC, CI/CD & GitOps: Terraform · CloudFormation · ArgoCD · FluxCD · GitHub Actions · GitLab CI

Observability: Datadog · Prometheus · Grafana · OpenTelemetry · EFK (Elasticsearch/Fluentd/Kibana) · PagerDuty · CloudWatch

Security & Policy: IAM · RBAC · Zero Trust · Vault · External Secrets Operator · Sealed Secrets · Policy Reporter

Platform Engineering: Backstage · Python · Bash · SQL

AI / Agentic Platform: Claude Code + custom skills · MCP servers (read-only + mutating) · AWS Bedrock

EDUCATION

Bachelor's Degree in Management of Organizations — National Aviation University, Kyiv, Ukraine

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Certified Kubernetes Application Developer (CKAD)
- HashiCorp Certified: Terraform Associate
